

LED WORK LIGHTS GEARING DYNAMICS

NEW! LED WORK LIGHTS

We are pleased to have partnered with the Australian importer and wholesaler of high-quality LED vehicle lighting. Primarily, these products are work lighting and perimeter lighting. Much of the range incorporates a silicone lens, which is considerably more durable than the traditional polycarbonate lens.

Some of the range is available with a configurable option which can change the function of the light from solid to flashing or even alternating colors.

Available with a variety of options and colors, these durable and reliable lights will give you new perspective on what work lighting and perimeter lighting *should* be like.

Contact us today to discuss your requirements.
