

# BOOT UP FOR FULL PROTECTION

## SPLIT CV BOOTS

**FOR TOYOTA  
LANDCRUISER**

**NOW AVAILABLE  
FOR 78/79 SERIES**

**AVOID COSTLY  
AXLE HOUSING  
REPLACEMENT**

**GET MAXIMUM  
LIFELONG SWIVEL  
HOUSING PROTECTION**

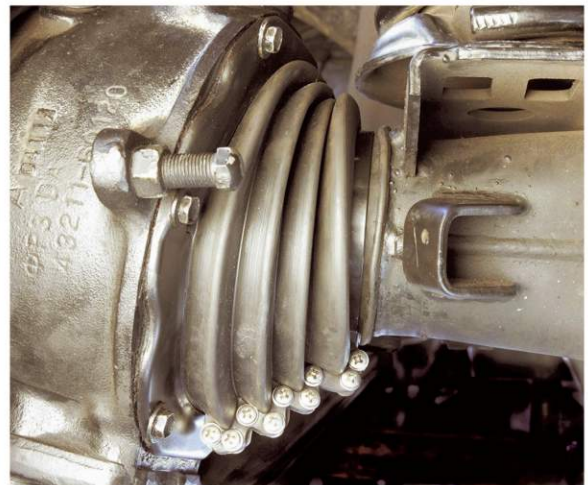

Prevent the attack of corrosive water, grit abrasion, pitting, and seal damage on the exposed landcruiser axle and swivel housing and King Pin bearings.

No more hard chroming of the housing to extend working life.

No more seal destruction, grease dilution and housing wear.

Contaminants that grind away at the housing and seals causing a full front end replacement are kept well at bay.

The full sealed rubber boot makes the housing impervious to wear and tear that is a common problem on tough off road conditions.

Combined with our Greasable CV Joints, the front end will have maximum and external protection with a corresponding longer working life.
